**GOVERNMENT OF EKITI STATE**

**VEHICLE INSPECTOR SERVICE**

**SERVICE LEVEL AGREEMENT (SLA) COMPLIANCE REPORT**

**Reporting Period: April 1st – 30th, 2025**

## **1. Introduction**

This report outlines the compliance of the Vehicle Inspector Service with the Service Level Agreement (SLA) for the month of April 2025. It provides a detailed account of service requests received and processed, and measures the timeliness and responsiveness of the VIS in fulfilling its statutory obligations.

## **2. Scope of Report**

The report covers:

- Nature of services requested
- Channel through which requests were submitted
- Dates of request submissions
- Decisions reached (approval or denial)
- Dates of communication of decisions
- Comparison with SLA timeline
- Compliance status
-

### 3. SLA Requirement

Per the SLA for the Registration of vehicle inspection certificates, requests are to be processed and a decision communicated within 5 working days.

### 4. Service Request Log – April 2025 (summarised version)

| S/N | Nature of Service Requested    | Channel of Request | Number of Applicants | Number Attended to within the SLA Time line | Date of Request                         | SLA Timeline   | Compliance Status                             |

N.B: culled from the detailed version of the Service Request Log

### 5. Compliance on Certificate of Road Worthiness

- **Total Requests Received: 3119**
- **Requests Processed Within SLA Timeline: 3119**
- **Requests Processed Beyond SLA Timeline: Nil**
- **Overall SLA Compliance Rate: 100%**
- 

### 6. Observations

- The VIO showed commendable efficiency with most service requests resolved within the SLA-mandated timeframe.
- Online platforms remain the preferred channel for service engagement, underlining the importance of continued investment in digital services infrastructure.

### 7. Recommendations

- Implement an internal tracking mechanism for inter-agency dependencies to minimize delays in complex service categories like dispute resolution.
- Continue sensitizing the public on the use of digital channels for faster request handling.
